

Jennifer Joo

Jennifer Joo, Operations Analyst, joined GG+A in July 2015. In her role, she works with GG+A's DonorScape Wealth Screening and Predictive Analytics products.

Jennifer brings with her extensive training in statistical data analysis, statistical computing, and applied regression and design. She also applies her skills to support alumni and constituent survey projects, as well as peer benchmarking studies.

Previously, Jennifer served as an intern with the Channing Murray Foundation, a Unitarian-Universalist campus-community center providing educational, artistic, and cultural programs. She has also provided technical support for the Administrative Information Technology Services (AITS) division at the University of Illinois at Urbana-Champaign.

Jennifer earned a Bachelor of Science in Statistics from the University of Illinois at Urbana-Champaign. She is currently a Consultant for the YMCA Women in Leadership Program.

During her tenure at GG+A, Jennifer has worked with the following client institutions:

Hoag Hospital Foundation

Louisiana Tech University

Oregon State University

State Theatre of New Jersey

The American College of Financial Services

The University of British Columbia

University System of Maryland Foundation

Virginia Tech Foundation
